Florida's New Hotel Beautiful-- The Polk

THE POLK is situated in the inspiring "Hills and Lakes" section of Florida's wonderful producing section, and at the head of the "Scenic Highway" which penetrates the most beautiful citrus grove country in the world.

Two hundred and twenty-one feet above the sea and half way between the Atlantic Ocean and the Gulf of Mexico, its rolling vista studded with hundreds of crystal lakes, it offers a view forever entrancing, and a bracing atmosphere, which adds zest to its outdoor sports and health giving activities.

If you have not seen the "Scenic Highlands" of Florida, you will be amazed at its beauty and inspired by its productivity. If you have seen it, you will be delighted to find that the beauty, comfort and service of the Polk is equal to the matchless surroundings in which this gem of architecture is set.

Probably no work of architecture in Florida surpasses the Polk in beauty of external design, while its lobbies, large dining room and roof garden, mezzanine floors and esplanade are surpassed by very few of Florida's famous hostelries. It is, of course, steam heated throughout which guarantees comfort when the mornings and evenings become chilly.

There is a tone of elegance about its "summery" furnishings which appeals to those with a taste for the quiet refinement of a home. All this is offered by the Polk at a scale of rates which makes it possible for those of moderate means to enjoy its comforts without a thought of excessive costs.

The main dining room is a comfortable, cheerful and attractive room where every effort is made to serve delicious food in a home-like manner at most reasonable prices. Our kitchen makes a specialty of home-made pastries and only the highest quality of food stuffs are used. We also cater to banquets, parties, dances, etc., on our roof garden. The view from this room is unsurpassed.
